RE: YOUR CERTIFIED JUNK-MAIL *EPA - 5 - 17 - IL - 08*

To Whom it May Concern:

I am writing this as the last official letter from JOHN GAULT TRUCKING, LLC, as this company will ceased operations as of 12/01/2017. After that date no further mail will be accepted, and all final business reports will have been filed.

I have also attached for your information, records from Lindsay Auto Parts / Lindsay Metal Madness (attachments A1-4). As these documents show, the part you folk's refer to as "EGR BLOCK PLATE" was procured by Mr. Gene Richardson, the guy who started all of this. While yes he made 6 of them for some reason, and left the unused items here (likely for the purposes of later sending your unconstitutional department after us) he also left behind the unused portion of the Alpine Green paint he purchased that day. I believe there is still a can in my paint locker to this day. Mr Richardson did perform the work to his truck on this property, but not by JGT's direction, or with our assistance, or even detail knowledge of what work he was performing. He was Leased on as an owner-operator at the time, and had shop use privileges.

This guy is upset, because I fired him for sexual misconduct. Specifically, as in having a sexual relationship with his dispatcher. Said Dispatcher was in a relationship with me at the time, and now is Vice President of American Interstate, LLC, a company formed by Mr Richardson.

It should also be noted, that you found an invoice that listed "TAKE OUT EGR". That is an actual invoice, however the earlier mentioned dispatcher (Marilyn L Long) also did shop billing. We took out the EGR valve for that customer, he had cleaned and serviced elsewhere, and we re-installed it. The fact she was unable to articulate the work done was inconsequential to the customer, so I did not consider it to be an issue. The one other invoice you made a copy of has an interesting story as well. That invoice even lists the previously mentioned "EGR BLOCK PLATE" item. You should be aware that we never performed work for this "customer". There was no payment received. It may also be noteworthy that it was entered in the system the day Marilyn Long (and by Marilyn Long) was fired. We suspect after I called Mr. Richardson and fired him, he had Ms. Long enter that invoice before I returned to the office and fired her. While most of the shop files are in folders labeled in my handwriting, this particular folder is NOT labeled in my handwriting.

You really need to ask yourselves if you really want to wade in the sewer that is known as Gene Richardson's (a convicted felon) life. This mess belongs in the gossip column, not in certified letters and threats of force against a taxpaying citizen.

Outside of those particular matters, I will also state personally, I will not be attending any conferences or court shenanigans with your unconstitutional agency. I will not be paying you any fines, fees, or levy's unless

you pry the money from my cold dead hands. And even then, you will be limited to the hundred dollars or less I carry on me. My estate would be left at a negative if it were liquidated today. John Gault Trucking, LLC's assets have been liquidated. Bank accounts will close on 12/1/17. The company has no funds to employ an attorney to present these facts and defeat you in court. I don't have the funds personally, and I also don't choose to give this matter or your agency a prima facie appearance of legitimacy by engaging in court proceedings. While I'm sure you do not like this stand, as agencies such as yours think we are not citizens of these United States, you think we are subjects. You may want to give pause and reevaluate. You must realize that if you choose to execute me to separate me from dollars or property, the news of this fiasco, and that you chose to execute a citizen over basically a domestic dispute, will probably not sit very well with the general public.

For these reasons, I am turning over these attachments. There is more documentation in safe keeping to support this position, and will be made public by another party, upon my death if necessary.

I am also sending a copy of all the documents in this matter, including this certified letter, and this response to the below mentioned parties. They both sure don't have time to bother with little items like this, however I feel it is necessary to get someone's attention a little higher up, before you guys make an incredible ass of yourselves at my ultimate expense.

cc: EPA Administrator Scott Pruitt

cc: President of the United States, Donald J Trump

Sincerely,

A handwritten signature in black ink, appearing to read 'Wesley D Litsey', with a long, sweeping horizontal line extending to the right.
